## Visual ILI Fest

### One shot

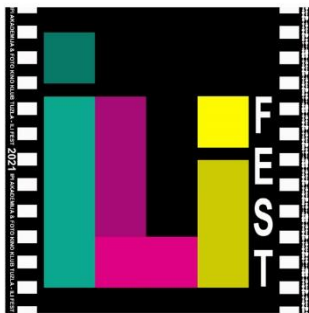

Film iz jednog kadra je izvorna filmska forma koja i pored prividne jednostavnosti jeste stepenica koja ne smije biti preskočena u razvoju umjetničkog izraza svakog filmskog autora. Ovaj festival pruža rijetku priliku promocije ovih djela. Ovim sofisticiranim izrazom nastaju djela koja prikazuju pomno i dugotrajno planirane kretnje i radnje. Umjetnost izgovaranja cijelog djela u jednoj riječi zaslužuje pažnju koju ovaj festival pruža takvom izrazu.

### Visual-cinema

Počeci filmske umjetnosti vežu se uz nijemi film. Jedini jezik kojim stvaralci u nijemom filmu komuniciraju sa publikom jeste jezik slike, svjetla, pokreta i gestikulacije, to je jezik koji ne poznaje jezičke barijere i poznat je najvećem broju ljudi. To je jezik vizualne percepcije, jezik slike. Umjetnost pokreta i gestikulacije je svoje vrhunce doživjela upravo u ovom izrazu. Ovaj dio festivala biće posvećen pored ostalih i autorima, kao i publici sa određenim oštećenjima sluha. Želimo što većoj publici približiti filmsku umjetnost i ujedno dati doprinos u afirmaciji ovoga, danas rijetkoga, filmskog izraza u kojemu ravnopravno učestvuju i autori sa određenim čulnim ograničenjima.

## Visual ILI Fest

### One shot

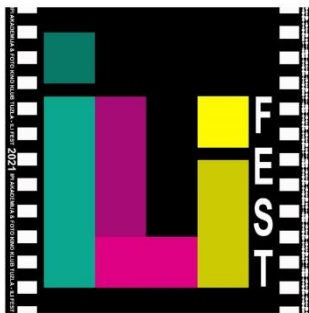

A single-frame movie is an original movie form which, despite its apparent simplicity, is a step that must not be skipped in the development of the artistic expression of every film author. This festival provides a rare opportunity to promote these works. This sophisticated expression creates work that shows carefully and long-term planned movements and actions.

### Visual-cinema

The beginning of movie art is tied to a silent film. The only language in which the creators communicate with the audience in silent film is the language of image, light, movement and gestures, it is a language that does not know language barriers and is known to most people. It is the language of visual perception, the language of image.

The art of movement and gestures reached its peak in this very expression. This part of the festival will be dedicated, among others, to the authors, as well as to the audience with certain hearing impairments. We want to bring movie art as close as possible to a larger audience and at the same time contribute to the affirmation of this, today rare, film expression in which authors with certain sensory limitations equally participate.

## **Audio ILI Fest**

### **Festival nevidljive umjetnosti**

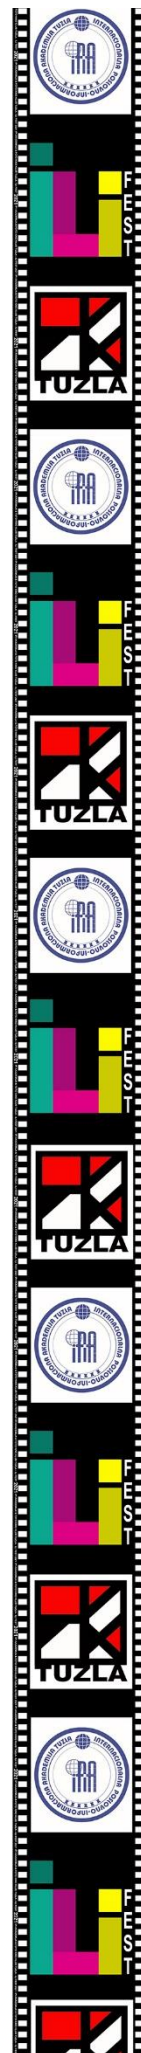

Audio art ili zvučne umjetnosti su posebna vrsta umjetnosti koje sve svoje „slike“ stvaraju zvučnim efektima. Zvuci oko nas govore jednu „vidljivu“ priču koja takvom postaje tek u umu pojedinca, stvaratelja ili recipijenta. Iako se u ovim umjetnostima komunicira samo zvučnim informacijama, stvaranje i konzumiranje ovih djela je dostupno najvećem broju ljudi. Iz toga razloga, Audio ILI Fest je festivalski događaj u kojemu ravnopravno, ili sa određenim prednostima mogu učestvovati i sva lica sa oštećenjima vida, u autorskom dijelu, kao i u uživanju u djelima ove umjetnosti.

### **ILI audio fest**

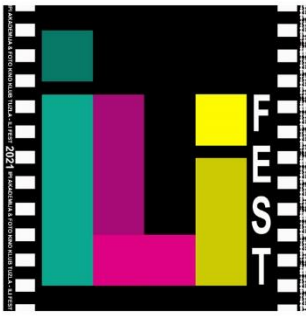

Audio dramska djela su djela posebne vrste teatra. Iako skoro sve nacionalne radio stanice sa posebnom pažnjom njeguju ovakva djela, festivali posvećen zvučnim umjetnostima su prava rijetkost. Stvaranjem audio dramskih djela, stvaramo jedan oblik umjetnosti u kojemu mogu uživati i lica koja ne mogu uživati u slikama svijeta oko nas.

### **Zvučni ILI eksperiment**

Zvuci koji nas okružuju nekada prenose brojne informacije. Ovaj festival njeguje te zvučne detalje koji prenose osjećaje okoline brojnim slušateljima. Eksperimentalna audio drama ne njeguje riječ kao sastavnicu priče, već priču prenosi brojnim zvučnim osjećajima. Svaka šetnja bez riječi jeste jedno ovakvo ispričano djelo, pa krenimo u ovu eksperimentalnu priču bez izgovorene riječi.

## Audio ILI Fest

### Festival of Invisible Art

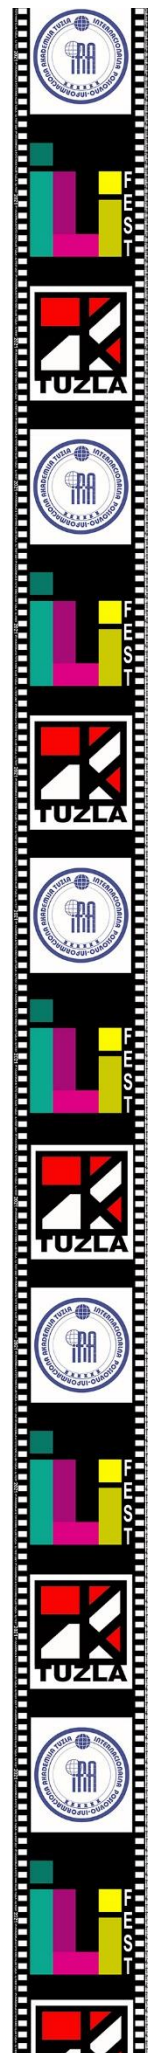

Audio art or sound art is a special kind of art that creates all its "images" with sound effects. Sounds around us tell a "visible" story that becomes such only in the mind of the individual, creator or recipient. Although in these arts only audio information is communicated, the creation and consumption of these works is available to almost everyone. For this reason, Audio ILI Fest is a festival event in which all persons with visual impairments can participate equally or with certain advantages.

### ILI audio fest

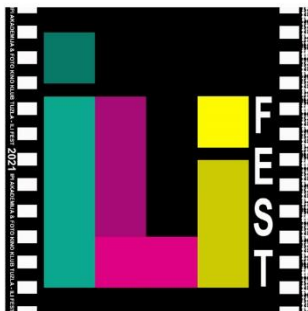

Radio plays belong to a special kind of theater. Although almost all national radio stations pay special attention to such works, festivals dedicated to the sound arts are a real rarity. By creating radio plays, we create an art form that even people around us, who cannot enjoy images of the world, can enjoy.

### "ILI" Sound Experiment

The sounds that surround us sometimes convey a lot of information. This festival nurtures these sonic details that convey the feelings of the environment to many listeners. Experimental radio drama does not nurture the word as an integral part of the story, but conveys the story with numerous sound feelings. Every walk without words is one such told work, so let's get into this experimental story without a spoken word.

## Foto klub Tuzla

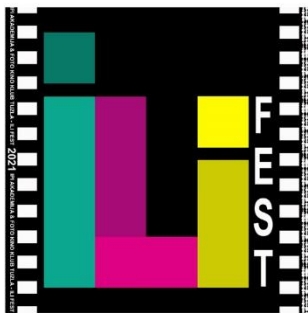

Foto kino klub Tuzla nastao početkom šezdesetih godina XX. stoljeća u svome radu bilježi brojne značajne izložbe među kojima treba izdvojiti Prvu (1969.) i Drugu (1971.) međuklupsku izložbu, koje su zbog svog visokog nivoa, nazvana salonima umjetničke fotografije (SUF).

Epitet SUF je i zvanično prihvaćen, pa su naredne tri izložbe saveznog ranga dobile taj naziv (3.SUF 1973., 4.SUF 1975., 5.SUF 1977., 6.SUF 1979. i Dani jugoslavenske fotografije 1980. U tom periodu je tuzlanski Foto kino klub svrstan među najuglednije foto i kino-organizacije na prostorima bivše Jugoslavije sa nizom kvalitetnih fotografa umjetnika:.

Poslije duže pauze u radu, održana je 2004. godine obnoviteljska Skupština Kluba kojom se nastavlja prekinuta tradicija. U tom periodu dolazi do obnove članstva te se uz neke ranije, pojavljuju i novi autori, te je do punog izražaja došla i nastavna djelatnost u obrazovanju novih naraštaja fotografskih i kinematografskih umjetnika i izlagača. Otvorena je prva BH galerija fotografije te organiziran i program *Galerija fotografije* sa velikim brojem klupskih, samostalnih, državnih i međunarodnih izložbi među kojima su najznačajnije New Generations, Dani BH fotografije i brojne multimedijalne izložbe poput TV salona fotografije, kao i brojne druge izložbe likovnih umjetnika i kolekcionara.

Galerija je od otvaranja pružala i pomoć drugim udruženjima, te ulaskom u organiziranje ILI festivala konačno u punom kapacitetu započela i obnovu svoje kinematografske djelatnosti.

### Photo Cinema Club Tuzla

Photo Cinema Club Tuzla, founded in the early 1960s, records a number of significant exhibitions, including the First (1969) and the Second (1971) inter-club exhibitions, which are called art salons (SUF) due to their high-level photography. The epithet SUF was officially accepted, so the next three exhibitions of federal rank were given that name (3.SUF 1973, 4.SUF 1975, 5.SUF 1977, 6.SUF 1979 and Days of Yugoslav Photography 1980. In that period, Tuzla Photo Cinema Club ranked among the most prominent photographs and cinema organizations in the former Yugoslavia with many high quality photographers.

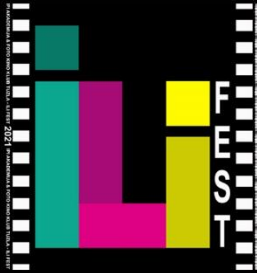

After a long break in work, a renewal Assembly of the Club was held in 2004, which continues the broken tradition. In that period, the membership was renewed and, in addition to some earlier ones, new authors appeared, and the teaching activity in the education of new generations of photographic and cinematographic artists and exhibitors came to full expression. The first BH photography gallery was opened and the Photography Gallery program was organized with a large number of club, solo, state and international exhibitions, among which the most important are New Generations, BH Days of Photography and numerous multimedia exhibitions such as TV Photography Salon, as well as numerous other exhibitions of artists and collectors. Since its opening, the gallery has also aided assistance to other associations, and by entering the organization of the ILI Festival, it has finally started the renewal of its cinematographic activity in full capacity.
